

Results of Survey Regarding Deer Population

TNT Area 5 Eastside Planning Council

November 2012

Table of Contents

Page 1 Questions 1-3

Question 1: How often do you see deer on your property on in your neighborhood?

Question 2: How many deer do you usually see?

Question 3: Have you observed a deer/car accident?

Page 29 Questions 4-7

Question 4: Any Lyme Disease at your home?

Question 5: Noticed any injured or ill deer?

Question 6: Noticed any protective or threatening deer?

Question 7: Describe damage to plants on your property.

Page 75 Questions 8-9

Question 8: Are deer eating deer resistant plants?

Question 9: Additional comments

Page 119 Survey Summary

Results of Survey Regarding Deer Population - Questions 1-3

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	1. How often do you see deer on your property or in your neighborhood?					2. How many deer do you usually see?	3. Have you observed a deer/car accident?		If yes, describe the damage.
				every day	several times a week	weekly	occasionally	never		YES	NO	
1	Meadowbrook	13214	DeForest Rd. & Hillsboro Pkwy.		1				1 to 6		1	
2	Meadowbrook	13214	Dewitt Rd. & East Genesee St.	1					1 to 4		1	Saw dead deer along side roadway.
3	Meadowbrook	13214	Dewitt Rd. & East Genesee St.	1					4 to 8	1		Saw dead deer by side of the road on Genesee Street near Dewitt Road. Did not see accident.
4	Meadowbrook	13214	Dewitt Rd. & East Genesee St.	1					15 +	1		deer hit, leg broken, car minimal damage
5	Meadowbrook	13214	Dewitt Rd. & East Genesee St.		1				3		1	
6	Meadowbrook	13214	Dewitt Rd. & East Genesee St.		1				4 to 5	1		Hit a deer on East Genesee at St. Mary's Cemetery
7	Meadowbrook	13214	Dewitt Rd. & East Genesee St.		1				3		1	
8	Meadowbrook	13214	Dewitt Rd. & East Genesee St.		1				2 to 5		1	saw dead deer on side of Dewitt Road
9	Meadowbrook	13214	Dewitt Rd. & East Genesee St.			1			4		1	
10	Meadowbrook	13214	Dewitt Rd. & East Genesee St.			1			1 to 3		1	
11	Meadowbrook	13214	Dewitt Rd. & East Genesee St.		1				2 to 4		1	
12	Meadowbrook	13214	Dewitt Rd. & Lockwood Rd.	1					1 to 6		1	
13	Meadowbrook	13214	Dewitt Rd. & Lockwood Rd.	1					3		1	
14	Meadowbrook	13214	Dewitt Rd. & Lockwood Rd.		1				2 to 5		1	
15	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.	1					2		1	
16	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				2 to 5		1	
17	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				3		1	
18	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				3 to 4		1	
19	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				1 to 20		1	
20	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				3 to 12		1	
21	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1				3 to 4		1	
22	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.			1			2 to 6		1	
23	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.			1			2 to 5		1	

Results of Survey Regarding Deer Population - Questions 1-3

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	1. How often do you see deer on your property or in your neighborhood?					2. How many deer do you usually see?	3. Have you observed a deer/car accident?		If yes, describe the damage.
				every day	several times a week	weekly	occasionally	never		YES	NO	
24	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1					1 to 2		1	
25	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1					1 to 3		1	
26	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1				1 to 5		1	
27	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.			1			2 to 3		1	
28	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.			1			2		1	
29	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.			1			3		1	
30	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.			1			2 to 3	1		on Genesee, woman in car but not hurt
31	Meadowbrook	13214	Edgemont Dr. & Kimber Rd.	1					1 to 9		1	BUT I've have been in "almost accidents" as have my neighbors, we simply know to watch out since they are so prevalent in our neighborhood
32	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.	1					5 to 9		1	
33	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1				1 to 4		1	
34	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1				2 to 3		1	Have had very close calls with deer jumping out and running in front of our car.
35	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.	1					1 to 3		1	
36	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1				3	1		dead deer
37	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1				1 to 9		1	
38	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.			1			2 to 3		1	
39	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.				1		2		1	
40	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.	1					4 to 8		1	But many close calls.
41	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1				2 to 5		1	
42	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.			1			2 to 8		1	
43	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.			1			3 to 4		1	
44	Meadowbrook	13214	Haddon Rd. & Hillsboro Pkwy.	1					4		1	but many near misses as deer cross roads
45	Meadowbrook	13214	Hillsboro Pkwy. & Lockwood Rd.	1					4		1	
46	Meadowbrook	13214	Hillsboro Pkwy. & Lockwood Rd.	1					4 to 6	1		Last year, two deer ran into side of my car. No injury to me. Don't know about the deer. Damage to car: \$3000
47	Meadowbrook	13214	Hillsboro Pkwy. & Meadowbrook Dr.				1		1 to 3		1	
48	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1					3 to 5		1	

Results of Survey Regarding Deer Population - Questions 1-3

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	1. How often do you see deer on your property or in your neighborhood?					2. How many deer do you usually see?	3. Have you observed a deer/car accident?		If yes, describe the damage.
				every day	several times a week	weekly	occasionally	never		YES	NO	
49	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1					2 to 3		1	
50	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1					3 +	1		I've seen three different car/deer accidents in the lat two weeks. All three cars were towed with significant damage tot he front end/wheels. Of course no injury to the deer
51	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1				3 to 5		1	
52	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1				2 to 4		1	
53	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1				2 to 5		1	
54	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.				1		2 to 3		1	
55	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1					5 to 6		1	
56	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1					4 to 6		1	
57	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1					6		1	
58	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1					3		1	
59	Meadowbrook	13224	Bradford Ln. & Euclid Ave.		1				2 to 5		1	
60	Meadowbrook	13224	Bradford Pkwy. & East Genesee St..	1					4 to 7	1		Headlight broken/ bumper bent
61	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					5		1	
62	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					3 to 6		1	
63	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					2 to 12	1		I've seen several. Most recently, the deer kind of stumbled into the woods, presumably to die. The car suffered moderate damage. There were no injuries.
64	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					5 to 6 +		1	
65	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					4 to 7		1	
66	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					5 to 6 +		1	
67	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					5		1	
68	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					8 to 10		1	
69	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					12 +		1	No accidents at all from deer. Only accidents from people not paying attention to their driving.
70	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					5 to 9		1	
71	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1					15 to 20		1	However, many near misses have been witnessed or have occured to me.

				every day	several times a week	weekly	occasionally	never		YES	NO	
72	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				3		1	
73	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				2 to 3		1	
74	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				3 to 5		1	
75	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				2 to 4		1	
76	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				1 to 5		1	
77	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				6		1	
78	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1				2 to 4	1		Not sure, it was night.
79	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.			1			4		1	Speeders are a much bigger issue
80	Meadowbrook	13224	Bradford Pkwy. & Hatherly Rd.	1					6		1	
81	Meadowbrook	13224	Bradford Pkwy. & Hatherly Rd.		1				3 to 5		1	
82	Meadowbrook	13224	Bradford Pkwy. & Meadowbrook Dr.	1					4 to 6	1		
83	Meadowbrook	13224	Bradford Pkwy. & Scottholm Boulevard		1				4 to 5		1	No, but I have seen dead deer on E. Genesee St
84	Meadowbrook	13224	Bradford Pkwy. & Scottholm Boulevard				1		2 to 3		1	
85	Meadowbrook	13224	Bradford Pkwy. & Standish Dr.		1				3 to 5		1	
86	Meadowbrook	13224	Bradford Pkwy. & Standish Dr.		1				5 to 7		1	
87	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.	1					3 to 4		1	
88	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.	1					1 to 5 +		1	
89	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.	1					5		1	
90	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.		1				2 to 5		1	
91	Meadowbrook	13224	Broad St & Croyden Rd.			1			3		1	
92	Meadowbrook	13224	Broad St. & Crawford Ave.			1			2 to 3		1	
93	Meadowbrook	13224	Broad St. & Crawford Ave.				1		3 to 4		1	
94	Meadowbrook	13224	Broad St. & Croyden Rd.	1					4	1		car was damaged, deer injured
95	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					2 to 5		1	
96	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					4		1	
97	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					3 to 6	1		car damaged near Nottingham; deer injured then shot by police

Results of Survey Regarding Deer Population - Questions 1-3

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	1. How often do you see deer on your property or in your neighborhood?					2. How many deer do you usually see?		3. Have you observed a deer/car accident?		If yes, describe the damage.
				every day	several times a week	weekly	occasionally	never	YES	NO			
98	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					3 to 10		1	No, not yet, but I've had to slam on the brakes and serve to avoid hitting them. Especially on Euclid near Bradford and even coming up Brookford hill on my way home.	
99	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					4 to 5		1		
100	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					4 to 5		1		
101	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					5 +		1		
102	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					1 to 6		1	I've not witnessed an accident, but last week came within inches of colliding with a deer that darted out in front of me on Euclid St; normally they wander/ saunter into the road, but this one came bounding from the bushes and I had to slam on my brakes and I skidded on the wet road/leaves; if not for an extra high leap by the deer at the last moment I surely would've hit it;	
103	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					3 to 6		1		
104	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1					4 to 5	1		Deer broke leg- minimal damage to car	
105	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1				2 to 7		1		
106	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1				3 to 17		1		
107	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1				4		1		
108	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1				2 +		1		
109	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1				3 to 15		1	No, but I sometimes have to stop the car to let deer cross the street.	
110	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1					6		1

				every day	several times a week	weekly	occasionally	never	YES	NO			
111	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1					6 to 8	1		My husband is an Orthopedic Trauma Surgeon at Upstate that took care of the victim who survived the head on collision caused by veering away from a deer. The other driver died! He cared for yet another victim with close to similar circumstances! To top this off: He has had to care for 2 seriously injured patients every week due to deer, this summer alone!!!!	
112	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1				4		1		
113	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1				4 to 5		1		
114	Meadowbrook	13224	Brookford Rd. & Hatherly Rd.		1				1 to 5		1		
115	Meadowbrook	13224	Brookford Rd. & Hatherly Rd.		1				3 to 5 +		1

153	Meadowbrook	13224	Croyden Rd. & Sherbourne Rd.	1					6		1	
154	Meadowbrook	13224	East Genesee St. & Hurlbert Rd.	1					2 to 5	1		I have hit two deer in the last 6 months, one died the other took off
155	Meadowbrook	13224	East Genesee St. & Meadowbrook Dr.		1				3 +		1	
156	Meadowbrook	13224	East Genesee St. & Scott Ave.		1				7 to 13	1		Did not see accident, but saw dead deer who had been hit by a car near the corner of Ratcliffe and Revere
157	Meadowbrook	13224	East Genesee St. & Scott Ave.		1				5 to 6		1	
158	Meadowbrook	13224	East Genesee St. & Scott Ave.			1			2 to 4		1	

Results of Survey Regarding Deer Population - Questions 1-3

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	1. How often do you see deer on your property or in your neighborhood?					2. How many deer do you usually see?	3. Have you observed a deer/car accident?		If yes, describe the damage.
				every day	several times a week	weekly	occasionally	never		YES	NO	
159	Meadowbrook	13224	East Genesee St. & Scottholm Boulevard		1				2 to 3		1	Deer run across E. Genesee Street several times a week, all times of the day/night. I have not witnessed an accident, but have seen several near misses.
160	Meadowbrook	13224	Euclid Ave. & Guilford Rd.		1				3 to 4		1	
161	Meadowbrook	13224	Euclid Ave. & Guilford Rd.		1				3		1	
162	Meadowbrook	13224	Euclid Ave. & Guilford Rd.				1		3 to 5		1	
163	Meadowbrook	13224	Euclid Ave. & Guilford Rd.				1		2 to 6	1		Saw a dead deer on the shoulder of the road at the intersection of Kimber Road & Randall Roads.
164	Meadowbrook	13224	Euclid Ave. & Hatherly Rd.	1					2 to 6	1		I did not stop because the police were there.
165	Meadowbrook	13224	Euclid Ave. & Hatherly Rd.			1			4 to 5		1	
166	Meadowbrook	13224	Euclid Ave. & Houston Ave.		1				3 to 10	1		Deer ran out from neighbors yard to the street. A car was coming down and ran right into the front end of the car. Smashed in the front right side of the car, got up and took off running.
167	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1					2 to 3		1	
168	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1					3 to 10		1	
169	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.		1				4 to 6		1

26	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1		2 dogs, mild, treated		1	1	Ate many hostas, hydrangeas, yew. Scraped tree bark	
27	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			1	1	hosta and mums	
28	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			1	1	ate various kinds of flowers	
29	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			1	1	I think they are eating my hostas.	
30	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			1	1	ate all my hostas and ate bushes along fence	

Results of Survey Regarding Deer Population - Questions 4-7

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	4. Any Lyme Disease at your home?		If yes, how serious?	5. Noticed any injured or ill deer?		6. Noticed any protective or threatening deer?		7. Describe damage to plants on your property.
				YES	NO		YES	NO	YES	NO	
31	Meadowbrook	13214	Edgemont Dr. & Kimber Rd.		1	I do not walk on the lawn or in the flower beds for fear of Lyme disease. In the late spring, I leaned over a hosta plant and got a tick on the back of my leg...I removed it immediately and have been okay but I was quite worried. Luckily, I have someone who cares for my garden and they have had Lyme disease in the past...they are not sure where it was contracted but they have been successfully treated.	1		1		I sprayed liquid fence all summer on my plants and that worked, but when I stopped this fall all of my hostas, tree peonies, roses, day lilies and many flowers were destroyed. They are even starting to eat my arborvitae early...it's quite a mess!! And when I chase them away, they come right back.
32	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1					1	We no longer try to grow deer treats, but every winter they do trim yew bushes.
33	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1					1	eating both flowers and vegetables
34	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1			1		1	all hostas eaten. Spray with deer repellent helped a little.
35	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1		1			1	None, they are terrified of my dogs.
36	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1					1	eating of bushes & plants,--- deer path thru my myrtel
37	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1	But my next door neighbor did				1	They have eaten several plants, both perennials and annuals
38	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1					1	ate tulips like they were candy
39	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1					1	eaten vegetables & plants
40	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1	We don't go out to the part of the property where they tend to sleep anymore.				1	Damage to all shrubs and garden even worse this year.
41	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1					1	they seem to eat most anything even those plants/bushes right up against my house
42	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1					1	eaten hostas , phlox
43	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1					1	They eat apples which is a positive.
44	Meadowbrook	13214	Haddon Rd. & Hillsboro Pkwy.		1					1	eat grasses, shrubs, flowers, plants, as well as hoof prints in lawns and gardens

77	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1		1			1	destroyed evegreens; ate all my tomatoes; eat geraniums, mums, smashed living room window
78	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1		1			1	Everything has been eaten. EVERYTHING. Including jack-o-lanterns.
79	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1	There is no scientific corellation between Lyme Disease and white tailed deer.		1		1	none
80	Meadowbrook	13224	Bradford Pkwy. & Hatherly Rd.		1			1		1	Apples, Rhododendron buds, tulips, etc in garden/yard
81	Meadowbrook	13224	Bradford Pkwy. & Hatherly Rd.		1			1		1	They eat roses and flowering plants.
82	Meadowbrook	13224	Bradford Pkwy. & Meadowbrook Dr.		1			1		1	Destroyed entire vegetable, rose and perennial gardens
83	Meadowbrook	13224	Bradford Pkwy. & Scottholm Boulevard		1		1			1	ate tulips and tomato plants
84	Meadowbrook	13224	Bradford Pkwy. & Scottholm Boulevard		1			1		1	munching leaves from trees and bushes
85	Meadowbrook	13224	Bradford Pkwy. & Standish Dr.		1		1			1	Ate cedar tree foliage up to six feet from ground, white birch and tulip tree bark, blossoms from hydrangelas, day lillies, tiger lillies, leaves off forsythia shrubs.

Results of Survey Regarding Deer Population - Questions 4-7

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	4. Any Lyme Disease at your home?		If yes, how serious?	5. Noticed any injured or ill deer?		6. Noticed any protective or threatening deer?		7. Describe damage to plants on your property.	
				YES	NO		YES	NO	YES	NO		
86	Meadowbrook	13224	Bradford Pkwy. & Standish Dr.		1			1	1		The deer have destroyed shrubs which were planted long before we purchased our property in 1989. Starting 6 years ago, we had to put up a deer fence around our vegetable garden because 7 years ago, the deer destroyed our vegetable garden. This past year we put in a permanent deer fence around the garden at a cost of \$1650.00.,The deer eat red raspberry bushes, but not black raspberry bushes. They eat the strawberry plants. they eat out of the bird feeders and they drink out of the birdbath which is heated in winter. they destroyed the 2 apple trees I planted.	
87	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.		1	But I was given antibiotics to prevent Lyme Disease because of tick bites (2x within past 5 years)		1		1	Completely destroyed my crop of black raspberries by munching side shoots; ate green bean and pea plants down to the ground; chewed roses growing right next to the house; they eat many types of lily. Each year they eat all of the peaches from our trees.	
88	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.		1			1		1	Eat my geraniums, daisies, & especially hostas.	
89	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.		1			1	1		Boxwoods, rhodendron, spirea, marigolds, and any veggies	
90	Meadowbrook	13224	Bradford Pkwy. & Woodside Dr.		1		1			1	Flower garden, plantings, --almost anything planted gets eaten up	
91	Meadowbrook	13224	Broad St & Croyden Rd.		1			1		1	They eat almost all of my vegetables.	
92	Meadowbrook	13224	Broad St. & Crawford Ave.		1			1		1	The plants in my front garden has been destroyed by the deer population.	
93	Meadowbrook	13224	Broad St. & Crawford Ave.		1	But my 4 yr old daughter had a tick on her face that we, luckily, discovered before it became engorged.				1	1	Ate all the hosta leaves off the plants in our backyard. Our hosta plants run all along the back of our house.
94	Meadowbrook	13224	Broad St. & Croyden Rd.	1		my dog		1		1		
95	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1		1			1	enormous

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	4. Any Lyme Disease at your home?		If yes, how serious?	5. Noticed any injured or ill deer?		6. Noticed any protective or threatening deer?		7. Describe damage to plants on your property.
				YES	NO		YES	NO	YES	NO	
96	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	None - we only have grass on our property (intentionally).
97	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1		serious, 2 cases in our godmother who's 80 years old in 2012	1		1		eat countless flowers, trees, hosta, tulips, since 2010
98	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	Eat petunias, chrysanthemums, hosta, pull up other plants in garden, browse all the bushes up to as far as they can reach. Leave droppings all over the lawn. We spend \$400 a year to spray our yew hedge, otherwise it would be destroyed by the deer. I don't like to use pesticides, but I also want to keep my yew intact.. They eat the crabapple berries and pull the bark off even salix willow.
99	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	
100	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	Striping bark killing shrubs - eating everything! Hosta, goats beard, lilac leaves etc. Leave excrement that have to be cleaned up.
101	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	Eat hostas, lillies. Eat everything! It's awful!
102	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1	Not in our home, but a boy two houses down the road did get Lyme disease a few years back;		1		1	Coming up on to my deck and eating potted plants to a stub; jumping over the fencing I have to enclose my vegetable gardens; they ate the bark off a young cherry tree in the fall causing it to die;
103	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1		dog	1			1	eat plants in the garden
104	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1		1			1	Where do I begin?? They have destroyed numerous garden plants (lilies, hydrangeas, hosta, sedum, etc.) They leave their droppings all over our yard. We must put 7 ft. high fence around our small veg. garden.
105	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			1		1	regular destruction variety of plants

Results of Survey Regarding Deer Population - Questions 4-7

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	4. Any Lyme Disease at your home?		If yes, how serious?	5. Noticed any injured or ill deer?		6. Noticed any protective or threatening deer?		7. Describe damage to plants on your property.
				YES	NO		YES	NO	YES	NO	
106	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1		1		1		Consumed entire hosta garden, sampled shrubs and ivy growing around foundation, and nibbled buds of saplings. Buck-rubbed w. antlers several young trees. Also we've given up on day lilies -- buds don't get a chance to bloom.
107	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1		It was my dog and she just tested positive for it and was put on several rounds of antibiotics to get rid of it.		1		1	The eat flower and shrubs. I have given up gardening to a certain extent because of this.
108	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1	However our neighbor's son (eleven years old) has contracted Lyme disease.		1	1		They eat all the hosts, lilies, tulips, yews, and all potted plants.
109	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1		1			1	They eat annuals, perennials, shrubs and hedges; all small trees in my yard have damage from buck rubbing; even eat ivy off the side of the house.
110	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1		1		1		It's hard to know where to begin. After the deer repeatedly found ways into our vegetable garden when it had a 6 foot fence, we finally installed a sturdier 8.5 foot fence. The deer have eaten and destroyed young trees we have planted, they have eaten ivy and hostas that grow right in front of our house, and they have eaten numerous perennials.
111	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1		Both of our German Shorthaired Pointers have contracted Lyme's Disease the year we moved into our house in 2006.	1		1		They eat everything, hosta, shrubbery, mums, roses, the list goes on. The buck mark up the ornamental tree bark where we have to cover with metal meshing. We pay \$500. to spray the shrubbery as a deer repellent applied by Bartlett Tree Service every fall.
112	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1			1		1	Extensive damage to lillies, hostas, trees--limits what I plant.
113	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1			1		1	none

199	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	ate all hosta plants
200	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1				1	1	Eat plants I plant + native plants on property
201	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1	Do not know	1		1		All my plants and many trees and shrubs have been eaten over the past 4 years. Includes plants deers "don't eat"
202	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	eating flowers, etc., etc., etc.
203	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1		1			1	They ate the lillies, geraniums, petunias, peonies, crab apples, tomatoes, etc.
204	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1	1		eat flowers and plants and defecate
205	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1		1			1	From 2003 wqhen I moved here until two years ago I only noticed damage to vegetables in garden. IN past two years they eat almost everything including oastas, sedum lilies and any other plant with spikes
206	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1				1	1	They have eaten almost all plants and shrubs including plants they normally do not eat like mums, roses, hydrangeas. What they don't eat they have trampled
207	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1				1	1	Eaten many types of perennial plants, shrubs, geraniums in pots on front steps, hanging baskets on patio in back yard

Results of Survey Regarding Deer Population - Questions 4-7

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	4. Any Lyme Disease at your home?		If yes, how serious?	5. Noticed any injured or ill deer?		6. Noticed any protective or threatening deer?		7. Describe damage to plants on your property.		
				YES	NO		YES	NO	YES	NO			
208	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	Deer regularly nibble on just about everything in our garden--veggies, flowers, shrubs, etc. WE have ceased trying to grow vegetables.		
209	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	All my hosta are gone. They ate all the beonias, geraniums, sedum, hydrangas and now the mums and even my ivy. All rose bushes eaten! They jumped my fence and destroyed my entire vegetable garden. My 15+ years of gardening - gone!!!		
220	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1	But, both the dog and our son have had ticks on them after being in the yard.	1			1	Eaten beans, tomatoes, hostas, currants, and peas in vegetable garden and front plantings,		
211	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	eating plants; destroyed birdfeeder		
212	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	Trampled some plants; feces on lawn		
213	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	Eaten hosta, day lillies.		
214	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1		1			1	flowers, shrubs, pumpkins		
215	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			1		1	None yet		
216	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1		Apparently a mild case. We are, however, always concerned about Lyme disease because family members have had serious cases in RI and we know the deer are frequent visitors in our yard.				1	1	Lots of damage. Tulips, phlox, lots of hostas, Asian lillies, perhaps some day lillies etc. etc. were munched away by deer.	
217	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1					1	1	Totally destroyed our plants. No more flowers	
218	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1					1	1	The deer have eaten almost every plant on our property-significant damage	
219	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1			1			1	Each year they eat all of our day lilies, last year they ate our tomato crop--only stopped when we put up a 6ft fence.	
220	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1	We are vaccinating our dog for Lyme disease because of the deer.					1	1	Eating flowers

				YES	NO		YES	NO	YES	NO	
262	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	They've made it impossible for us to have a vegetable garden. They seem to eat everything except hot peppers. We have had a vegetable garden for over 25 years, and this year we gave up. They also eat the hosta and a variety other flowering plants.
263	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	ate several plants; disturb my dogs
264	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1		My wife got the disease from a tick in our vegetable garden, which is frequently visited by deer. Fortunately, the disease was diagnosed early and antibiotics started immediately. Nonetheless, the entire summer was "lost" to this disease since my wife was frequently exhausted and not able to travel to visit our grandchildren				1	decimated our vegetable garden prompting the purchase of rather expensive tents to protect. Needless to say, they make the harvesting of the vegetables extremely difficult
265	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	Eaten cedar trees, hosta, pansies, petunias, vegetables, tulips
266	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	None
267	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	Eaten all my daylilies for the past 2 summers
268	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	
269	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	browsing
270	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			1		1	none
271	Meadowbrook	13224	Meadowbrook Dr. & Scottholm Terrace		1			1		1	Eat tulips, hosta, and shrubs. I can only plant impatiens and marigolds.
272	Meadowbrook	13224	Meadowbrook Dr. & Scottholm Terrace	1		Dog. He got a tick from our well mowed side yard. We have not tested the dog for Lyme disease.				1	1/4 of our landscaping has been eaten or crushed. All of our cedar bushes were sprayed and most of the foliage on them died.
273	Meadowbrook	13224	Meadowbrook Dr. & Sherbourne Rd.		1			1		1	Don't have that issue.
274	Meadowbrook	13224	Meadowbrook Dr. & Sherbourne Rd.		1		1			1	Eating plants down to the ground.

				YES	NO		YES	NO	YES	NO		
275	Meadowbrook	13224	Mineola Dr. & Scott Ave.		1			1		1	they eat everything green in the yard. most of the plants in the backyard are destroyed by the deer. They also have eaten my annuals-- after replanting twice I gave up.	
276	Meadowbrook	13224	Mineola Dr. & Scott Ave.		1		1		1		Deer just come through and graze on everything. They have destroyed the abervite trees in the yard as well vegetable gardens. They eat the geraniums on Meadowbrook endcaps as well as some of the perennials.	
277	Meadowbrook	13224	Mineola Dr. & Scott Ave.	1		I got Lyme disease in June, 2009. I know I was bitten while working in my front yard garden. Fortunately I was diagnosed early by my daughter & was successfully treated with antibiotics. I am not convinced my dr would have found the bite if I hadn't gone to the office with the diagnosis. (the bite was in the crease behind my knee) I spent that entire summer suffering and recovering from the disease & continue to get regular blood tests to be sure it is under control. It was a horrible experience I wouldn't wish on anyone and believe we should do all we can to control the carrier, deer.				1	1	Deer have eaten daylilies and other perennials as well as tomatoes, bell peppers and other vegetables. I finally resorted to buying net tents to protect my vegetables. Not an inexpensive fix, but effective. For those of us trying to grow some of our own food, the deer are more than an annoyance.
278	Meadowbrook	13224	Mineola Dr. & Scott Ave.		1			1		1	ate plants in front of house	
279	Meadowbrook	13224	Ramsey Ave. & Meadowbrook Dr.		1			1		1	Completely destroyed our hosta plantings and have eaten the twigs and flower buds from several ornamental shrubs.

326	Outer Comstock	13210	Roe Ave. & Thurber St.	1		My next door neighbor spends a significant amount of money saving his one year old dog from the disease. I treat my dogs and family members with antibiotics each time there is a tick bite. This is not something I wish to do, but with the threat so high in the area to begin with, no amount of preventative measures are helping control the problem.	1			1	Deer have eaten all of my Hosta plants for example, down to the ground and have caused hundreds of dollars of damage to landscaping on my property. They devour any sort of vegetable gardening I attempt, knock over items in my yard, cause the neighborhood dogs to bark incessantly, and have made general existence in the area unpleasant.	
327	Outer Comstock	13210	Thurber St. & Vincent St.		1			1		1	The deer have very neatly eaten almost everyone one of my geranium flowers on my nearly 100 plants all summer long. They don't like the greens. The bed was not very colorful this year. They were even on the stoop eating from the pot by my front door!

21	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1			
22	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.	1				Thin them out. Shoot. Give food to Food Bank.
23	Meadowbrook	13214	East Genesee St. & Hillsboro Pkwy.		1			
24	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1			horseradish, young tree bark, most of flowers	deer not frightened when confronted
25	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1			small maple tree, hybiscus	Seeing the many hoofprints all around the back yard causes me to worry about ticks when I walk there.
26	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1			black lace elderberry, anemone	
27	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			they don't bother us
28	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.		1			
29	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1			hostas	
30	Meadowbrook	13214	Edgemont Dr. & Haddon Rd.	1				
31	Meadowbrook	13214	Edgemont Dr. & Kimber Rd.	1			I was told they would not eat hemlock, spruce or some other evergreen shrubbery but they have already started.	I brought my bird feeders in at night all summer because if I left them out, the feeders would be empty or knocked down by morning. I have seen deer by-pass my Yankee Flipper feeder and keep eating the seed directly from the feeder despite it turning round and round against their tongues. They also feed in the daytime so sometimes I come home to empty feeders even in the day after having just filled them. The feeders are hanging up high in the trees but they stretch and stand up on their legs to get the food.
32	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.		1			
33	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.	1				
34	Meadowbrook	13214	Edgemont Dr. & Lockwood Rd.	1				Unfortunately as much as I like deer, I feel the problem in our area has gotten out of control. The destruction of property and safety concerns for drivers really needs the attention of our elected officials.
35	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1			
36	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.	1			green & white leaf hosta	I favor any means of reducing deer population
37	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1			I hit a deer (or it hit me) in the village of Fayetteville. I also see them in the roads both on my way to work and coming home, almost every day. Most of the time it's more than one deer .
38	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1			
39	Meadowbrook	13214	Enfield Pl. & Hillsboro Pkwy.		1			

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
40	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.	1			Eating species they have never touched previously. I have hundreds of species in my yard and a very lovely flower garden and raspberry patch - it is destroyed.	We are very frustrated with the deer population and the damage they have caused. We will give up trying to keep landscaping if something isn't done. I'm concerned about my little grandchildren getting Lyme Disease. This is a health hazzard!
41	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1			worry about deer ticks & my grandchildren running around my yard barefoot & rolling in the grass
42	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1			deer increasing last 15 yrs; deer not afraid
43	Meadowbrook	13214	Hadden Rd. & Lockwood Rd.		1			
44	Meadowbrook	13214	Haddon Rd. & Hillsboro Pkwy.			1	not sure which plants are considered deer resistant	I hope something will be done to reduce numbers and recreate a safe neighborhood
45	Meadowbrook	13214	Hillsboro Pkwy. & Lockwood Rd.	1				After they've eaten their meal from our garden, they like to lay down on the crest of the hill in our yard. They will stay there for hours.
46	Meadowbrook	13214	Hillsboro Pkwy. & Lockwood Rd.		1		Many plants that nurseries call 'deer resistant', never were. At my place, the deer are eating the same plants they always have.	I want them gone by whatever means that work. Aside from the damage they do to landscaping, I really worry about increased deer ticks and Lyme disease. There is nothing natural or right about the out-of-balance deer population in the city. It's unfair to homeowners and to the deer. I'd like to see the deer removed. Or, what about shooting females with birth control hormones which has been done other places?
47	Meadowbrook	13214	Hillsboro Pkwy. & Meadowbrook Dr.	1			hostas	
48	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1			I would like to see an organized bow hunt
49	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1				There are too many [comments]
50	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1			Daffodil bulbs, outside ferns, geraniums and lavender	The deer are simply out of control and someone is going to get hurt.
51	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1		I asume deer interested in wide range of plants	Overpopulation is an insufficiently recognized public health problem
52	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.	1			crocus	
53	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1			deer bed in leave & grass compost pile
54	Meadowbrook	13214	Kimber Rd. & Lockwood Rd.		1			
55	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1			geraniums and marigolds	deer feces everywhere
56	Meadowbrook	13224	Bradford Ln. & Euclid Ave.		1			
57	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1			marigolds, enemia	Excrement all over yard.
58	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1			impatiens, mostly	We are concerned re tick diseases, especially since we often have grandchildren in our yard.
59	Meadowbrook	13224	Bradford Ln. & Euclid Ave.	1				

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
60	Meadowbrook	13224	Bradford Pkwy. & East Genesee St..		1			Open a season in town
61	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			The are fearless. Don't move when dog is barking
62	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			The deer in our neighborhood are out of control. There are to many for all the reasons listed in the opening letter . It is not pretty in the winter to see them starving.
63	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			I thought blackeyed susans were deer resistant as well as bee balm.	The city needs to act on this.
64	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			I have no objection to culling the herd.
65	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			Burning bush	When the crabapples are in season, the deer hang out under them--and unfortunately this is in Euclid Avenue.
66	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			peonies, iris, sedum, astilbe, and other perennials	It's wonderful that this committee has been formed. Hopefully they will address most of the suggestions brought forth at the meeting on 9/11
67	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			holly shrubs and this past winter ate burning bush	every year the deer damage has increased on my property
68	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			
69	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			We created the problems leading to overpopulation of the deer. It is NOT THEIR FAULT! Therefore, we need to live with them and NOT KILL THEM AS I AM SURE YOU ARE PROPOSING! The deer I see everyday appear to be healthy and they are NEVER THREATENING AS LONG AS I RESPECT THEIR SPACE. In terms of car accidents, they could be prevented if people obeyed the speed limits, OBEYED stop signs, and stopped TEXTING WHILE DRIVING. LEAVE THE DEER ALONE! We have too many cats in the neighborhood. Should we eradicate them too?
70	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			holly, hydrangeas, mums, geraniums	need to culled, property damage, danger to vehicles, can cause Lyme Disease
71	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			Hydrangea flowers	This summer, I had to take 2 ticks off of my children after playing outside in our backyard. This has not happened before and we have been in the neighborhood for 10 years now. Deer don't even move when our family comes out to play outside if they are napping in our side yard.
72	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1				
73	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1			
74	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.	1			Euonymus	Last summer we found a tick on our shoe while in the backyard where the deer often walk through.
75	Meadowbrook	13224	Bradford Pkwy. & Euclid Ave.		1

				YES	NO	?		
92	Meadowbrook	13224	Broad St. & Crawford Ave.		1			
93	Meadowbrook	13224	Broad St. & Crawford Ave.		1			
94	Meadowbrook	13224	Broad St. & Croyden Rd.	1			numerous - roses, bushes, etc.	
95	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Arborvitae	Shoot with bow & arrow like Cayuga Heights
96	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			We really enjoy the deer, and they do not come into our backyard because it is fenced in for our dogs, but we have no fancy landscaping and no vegetable garden because we know it will just get eaten by the deer. That is fine with us.
97	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			cedar trees, hot peppers	suggest bow hunters per Ithaca's program
98	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Petunias, chrysthanums (sp), phlox, sallix willow	We see doe with multiple fawns, and fawns so young they still have spots, even in September
99	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1				
100	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1				Neighbors & myself have actually had herds working together. They have no fear and will not leave if you show any kind of commotion. Have been told by environmental expert they can become quite aggressive.
101	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Flowers	I tried spray and they still ate everything. They sit in my yard like dogs. They are even out in the daytime. Please help. It's getting worse.
102	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			There are no longer any predators for these animals and we have lost the checks/balances; steps have to be taken to bring back the balance;
103	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			sedum	If the deer will be removed from the neighborhood, could they be tranquilized and then transported to another location. I know other places have shot the deer, but this may be a more humane way to remove them
104	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Hydrangeas RIGHT next to our house- three varieties	Cars slow down and even stop on the road to "observe" the deer. It's only a matter of time before there will be an accident. Also, I cannot let my grand babies play in my own yard due to all the deer poop.
105	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			hydrangia, varigated hosta	
106	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Large variety of hostas (resistant, we thought!).	They get a free pass when ruining gardens and landscaping. Also are not found guilty for exposing human populations to Lyme Disease and other tic-borne diseases.
107	Meadowbrook	13224	Brookford Rd. & Euclid Ave.		1			

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
108	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			They started eating hostas this year but also the yew bushes are being eaten down so far they don't recuperate.	I welcome any action to reduce or eliminate the deer from this area. The problem has gotten MUCH worse in the last two years. I am not replanting (as I imagine is the case with many of my neighbors) so the food for them will decrease even more beginning next year. This will exacerbate the problem.
109	Meadowbrook	13224	Brookford Rd. & Euclid Ave.	1			Peonies, autumn anemones, iris, forsythia.	Deer have changed the look of the neighborhood during the past decade through their constant grazing on domestic landscaping and defecating in yards. Their destructive impact on the landscapes cause property values to go down. The setting for my house is much less attractive than when I purchased it because of ongoing destruction by the deer. I've more-or-less given up, because everything I've tried they've ruined.
110	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1				One day while I was out running, a deer jumped right in front of me. Had it waited one second longer, we would have collided and I can't imagine the shape I'd be in. These deer have no fear of people or of our two dogs.
111	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1			Pansies, Mums, hosta, hydrangea, coleus. They walk in a confined area onto our patio and eat Euanamus hedges.	Every year they come closer, are more aggressive and there are more and more of them that appear very robust and healthy!!!
112	Meadowbrook	13224	Brookford Rd. & Harrington Rd.	1			hosta	we need to thin the herd and sell the venison to pay for the thinning program.
113	Meadowbrook	13224	Brookford Rd. & Harrington Rd.		1			
114	Meadowbrook	13224	Brookford Rd. & Hatherly Rd.		1			
115	Meadowbrook	13224	Brookford Rd. & Hatherly Rd.		1		Not sure. We have never had the hydrangeas or junipers eaten before this year.	
116	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.	1			roses, oak trees, mums,hydrangia	deer out of control, altering character of neighborhood
117	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.	1			Anything they get in their mouths,ex. Whisteria.	
118	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.	1			roses, mums, hydrangea, yews, arborvitae, hibiscus	deer cute but destructive
119	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.		1			
120	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.	1			hydrangas; coming close to house and eating just about everything	Hire sharpshooters like Vassar College.

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
121	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.			1	Not sure if barbury plant is supposed to be deer resistant.	Back yard is full of deer droppings. Mowing the lawn is a nightmare. Will wait til spring to rake leaves so as not to risk health issues by stepping and tracking droppings. Have canceled my lawn svc application for the same reason.
122	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.		1			
123	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.			1	not sure	
124	Meadowbrook	13224	Brookford Rd. & Meadowbrook Dr.	1			I did not know that they liked hostas and lilies	Last summer there was a fawn in some plants near front yard just resting for two or three days. I was told by vet that mom probably around. My husband and I are not adverse to humanely culling deer. It does seem better than dying of starvation and other accidental death
125	Meadowbrook	13224	Crawford Ave. & Euclid Ave.		1			
126	Meadowbrook	13224	Crawford Ave. & Euclid Ave.		1		Wouldn't know.	
127	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.		1		Got rid of plants deer eat	They walk all over. Saw a 10 - point buck on Scott Avenue.
128	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.		1			I am in favor of a program that kills the deer in our neighborhood. While no people in our house have contracted Lyme's, I know of enough in our neighborhood that I am nervous to let my kids play outside in our yard. I feel that this is a significant public health issue.
129	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.		1			
130	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.	1			tomatoes. Thought most animals stayed away from the leaves of a tomato plant.	Something needs to be done, either introduce predators or actively remove deer from the population, provide food for local community shelters and food banks.
131	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.	1				
132	Meadowbrook	13224	Crawford Ave. & Meadowbrook Dr.		1			Dart them, & take to state forest land
133	Meadowbrook	13224	Crawford Ave. & Mineola Dr.		1			
134	Meadowbrook	13224	Crawford Ave. & Mineola Dr.		1			There are often large groups of deer around my yard and neighborhood and they often stampede down the the street. My fear is that one day my dog and I will get trampled. I have not seen an accident on my street, but with the number of deer roaming the streets I'm sure we are at risk.
135	Meadowbrook	13224	Crawford Ave. & Mineola Dr.			1	Don't know.	They're "cute", but increasing populations and the associated inconvenience are getting to be a concern.

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
136	Meadowbrook	13224	Crawford Ave. & Montana St.	1			Geraniums, mums, daisys, all perennials in garden, shrubs, everything in my flower pots. I have lost hundreds of dollars and more due to the deer.	The deer are all over my property - back, front, and side yards. I'm afraid to work in the garden, etc. due to ticks. I don't want to invest in flowers any more. Please do something to get the deer under control.
137	Meadowbrook	13224	Crawford Ave. & Montana St.	1			Day lillies, ivy, peonies, maples, quince, forsythia, daisies, impatiens, begonias, packysandra	HELP!! PLEASE!!
138	Meadowbrook	13224	Crawford Ave. & Montana St.		1			deer fed by neighbor
139	Meadowbrook	13224	Crawford Ave. & Montana St.	1			Geraniums, as they were fine my first year here, then they began to be a total loss...eaten by all grazing deer. They eat it all, even in front and on the edge of my home on a double lot. They have no boundaries.	So sad because I simply cannot trust that even a fence would protect my property and myself. I do stand behind the idea of using their meat for the homeless and hungry.
140	Meadowbrook	13224	Crawford Ave. & Scott Ave.	1			Hydrangea, rhododendron, azalea, others.	Deer have also been a trigger for neighborhood dogs, including our own, to run after them (and therefore run away/get lost uncharacteristically). Our own dog was nearly hit by a car after chasing after the deer.
141	Meadowbrook	13224	Crawford Ave. & Scott Ave.	1			hostas	Monetary damage is my biggest concern as I have a large yard that I have spent time and money on and the deer just eat away.
142	Meadowbrook	13224	Crawford Ave. & Scott Ave.	1			impatiens	I've fenced in my veg. garden now, but deer come by frequently, nibbling on other plants, e.g. peonies. They also eat from our birdfeeder, so we take it in every night. They also for the first time ate all my impatiens planted against the side of the house every year. It's very discouraging for me.
143	Meadowbrook	13224	Crawford Ave. & Scott Ave.		1			My wife & daughter and dog got between mother and fawn. There was a tense moment but no violence.
144	Meadowbrook	13224	Crawford Ave. & Scott Ave.			1	I don't know	
145	Meadowbrook	13224	Crawford Ave. & Scottholm Terrace	1				concerned about major vehicular/deer crashes
146	Meadowbrook	13224	Crawford Ave. & Scottholm Terrace		1			In addition, the deer droppings contaminate our backyard, making it unhealthy for children to play.

Results of Survey Regarding Deer Population - Questions 8-9

				YES	NO	?		
147	Meadowbrook	13224	Crawford Ave. & Scottholm Terrace	1			heucheras, echinaceas.	this has gotten worse very rapidly. 5 years ago we almost never saw a deer, now we see them almost every day. We put up deer fence, but they push under it or jump over it at any spot they find the least weakness. They are unafraid--you have to run up to them yelling and waving your arms, and they don't budge until you are about 15 feet away. I would shoot them if I could. the charm of "bambi" has evaporated.
148	Meadowbrook	13224	Crawford Ave. & Scottholm Terrace		1			The problem problem we have with the deer is that we have several birdfeeders and the deer literally suck the seed out of them. Probably doubled or tripled the cost of feeding the birds!
149	Meadowbrook	13224	Crawford Ave. & Sherbourne Rd.		1			We find that deer near our house are generally not intimidated by the approach of humans, unless we run and yell at them.
150	Meadowbrook	13224	Crawford Ave. & Sherbourne Rd.			1	don't know	They are unafraid of my dog and also no longer solely nocturnal. I often see them in the mid-morning or early afternoon browsing
151	Meadowbrook	13224	Crawford Ave. & Sunnyside Rd.	1			geraniums	deer are harmless; fear for their safety.
152	Meadowbrook	13224	Crawford Ave. & Sunnyside Rd.		1			
153	Meadowbrook	13224	Croyden Rd. & Sherbourne Rd.	1				
154	Meadowbrook	13224	East Genesee St. & Hurlbert Rd.	1			Marigolds	
155	Meadowbrook	13224	East Genesee St. & Meadowbrook Dr.	1			mums	Not treating, but not afraid and won't move.
156	Meadowbrook	13224	East Genesee St. & Scott Ave.		1		Don't think so, but might have, we do have several varieties of supposedly deer resistant plants.	Just get rid of them. They are way too many and way too tame. You can get within a few feet of them and they just sit in the garden no matter how much noise you make. They also don't seem to be afraid of front yards and all the traffic on Genesee St.
157	Meadowbrook	13224	East Genesee St. & Scott Ave.		1			
158	Meadowbrook	13224	East Genesee St. & Scott Ave.		1			

Results of Survey Regarding Deer Population - Questions 8-9

				YES	NO	?		
159	Meadowbrook	13224	East Genesee St. & Scottholm Boulevard		1			Several deer sleep in our backyard several times a week. We are unable to grow much of anything because they destroy everything. The back half of our yard is unusable do to the amount of scat they leave. My children are not able to play in their own yard, due to the scat and we fear ticks carrying Lyme disease (one of our neighbors found a deer tick on her cat). We have tried several methods to deter the deer from coming into our yard, all unsuccessful. The deer are no longer afraid of humans and do not run away when approached. I am seeing increasing numbers of deer during the day along side and crossing the road. Last week one ran straight at me and my daughter from the parking lot of Nottingham High School, across the street into Jowonio parking lot (where I was standing) during morning rush hour traffic. The deer veered off into the woods after running partially up Jowonio's driveway. Something definitely needs to be done about this problem.
160	Meadowbrook	13224	Euclid Ave. & Guilford Rd.	1			wiegelia, cripanthenums if outside fence	Enjoy wildlife and have adjusted to the increased deer population, but concur with some population control.
161	Meadowbrook	13224	Euclid Ave. & Guilford Rd.		1			
162	Meadowbrook	13224	Euclid Ave. & Guilford Rd.	1			as listed above, Hosta, bleeding heart	we are new to the neighbourhood and although have lived on Onondaga Hill for 30 years, have never encountered so many BOLD deer, which leads me to believe they are very much accustomed to the 'neighbourhood habitat'
163	Meadowbrook	13224	Euclid Ave. & Guilford Rd.		1		I didn't know they would eat grape tomatoes.	
164	Meadowbrook	13224	Euclid Ave. & Hatherly Rd.	1			Junipers, bleed heart - lost 2 this summer to deer	The deer population is out of control. They travel in a pack. They are not intimidated or scared of people or dogs.
165	Meadowbrook	13224	Euclid Ave. & Hatherly Rd.		1			
166	Meadowbrook	13224	Euclid Ave. & Houston Ave.		1			They need to be taken back to the woods.
167	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.		1			
168	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1			hydrangea, sedum and hosta	The gardens are the least of it, although financially it may well affect resale of homes. Of great concern is the turning of our yards into toilets which are really not where we want our children to play, or adults to garden
169	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1				Have been chased by deer by Nottingham High School. They are very aggressive. I hate the deer! Please control the population!
170	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1			geraniums	Cull like at Vassar College. People are getting Lyme Disease and having ongoing illness despite treatment.
171	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.		1		Not sure.

				YES	NO	?		
172	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1			rose of sharon	Let them live; enjoy them. Put up deer Xing signs on Euclid. Tell people what plants not to plant. Please add me to email list: hurlburt310@gmail.com.
173	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.		1			I have had several close call collisions with deer in the evening hours in our neighborhood.
174	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.	1				get rid of them
175	Meadowbrook	13224	Euclid Ave. & Hurlburt Rd.		1			
176	Meadowbrook	13224	Euclid Ave. & Janet Dr.	1			impatiens, nicotiana, lilies, thorny roses, mums, etc.	The deer invasion into residential areas MUST BE STOPPED! By any means! The devastation and the health/safety risks carried are too high to tolerate! It feels like living in a Hitchcock world... Yet, worse, the city "codes" prevent us to build any defense, including a simple, almost invisible net !?
177	Meadowbrook	13224	Euclid Ave. & Janet Dr.		1		only plant daffodils from now on	3 sets of fawns seen in summer
178	Meadowbrook	13224	Euclid Ave. & Janet Dr.		1			
179	Meadowbrook	13224	Euclid Ave. & Janet Dr.	1			Begonias, mums, some shrubs I have never seen them eat before. Hostas that we have had for over 15 years and suddenly they are eating all of them, we have spent \$300.00 or more replacing plants etc, We can't even plant tulips or crocuses anymore have to plant all daffodils	If we could control the stags, perhaps trap them and move them north!
180	Meadowbrook	13224	Euclid Ave. & Janet Dr.	1			They are destroying all plants.	Every year there are more and more deer.
181	Meadowbrook	13224	Euclid Ave. & Kimber Rd.	1			I thought they did not like hydrangeas and some strains of hostas, but they are now eating all of them.	There are too many deer; they are unafraid of people, dogs, cars. They are walking in the neighborhood at all times of the day. They need culling.
182	Meadowbrook	13224	Euclid Ave. & Kimber Rd.	1			I am not very good at the names... but ones that other people have told me they thought were deer resistant...	To build on answer #6, on two seperate instances deer have come TOWARDS me as I was walking/running near my house. One was a male that was solo, and the other was likely a female (an antlerless deer) with smaller deer (assumed to be her fawn)
183	Meadowbrook	13224	Euclid Ave. & Kimber Rd.	1				This year I have seen more deer than ever before throughout the east side at all hours of the day. About one month ago, I saw a deer at Westcott/Genesee Street in mid-afternoon. I have also seen 4 deer laying down in my neighbor's yard at noon time.

200	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Don't know specific names	
201	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			roses, impatiens, hibiscus	Making us crazy. Worried about lyme disease. Many fawns being born. Often sleep in our yard. Some are quite agressive. Costing us \$\$\$!!!

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
202	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			The problem: deer have been displaced from outside the city.
203	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			
204	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			
205	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Sedum and hostas	They are rooting and rubbing against small trees causing damage to trunks, appear to have lost nearly all fear of humans and dogs, and appear to be very emaciated.
206	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Mums, tree leaves, roses	I know some folks think they are nice to look at but as a taxpayer who lives in a great neighborhood with other people who make a great effort to keep the neighborhood attractive, it would be a welcome relief if the deer population were reduced. They are a traffic hazard, carry diseases, ruin landscaping. I know of at least one neighbor who contracted Lymes disease this past summer. I can't imagine how many will be sickened if the deer population increases. People and animals who spend any time in their own back yards will be at risk. Many of us have spent large sums of money and put in hours of labor to make an attractive neighborhood which suffers more damage each year. Sharpshooters would be the best option. Locations for sharpshooters could be Thornden Park, St. Mary's Cemetary for starts. Other areas have used sharpshooters with some success. If the deer are not culled, they will become diseased, starved and die. If they are harvested now, the meat could possibly go to a food bank, hides could be sold or donated.
207	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Phlox and a couple of other perennials	Tried a deer repellent product with a 100% guarantee (Deer Scram) and it did not stop deer from destroying our landscaping. Found another environmentally friendly product called Deer Out and it did seem helpful. We love Bambi and family, but please do something and have them go to back to Disneyland.
208	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Holly, hydrangea,	While we don't see deer every day, we see their droppings and damage every day. We chased two out of our driveway this evening.
209	Meadowbrook	13224	Euclid Ave. & Scott Ave.	1			Some hydrangas and viburnum.	St. Mary's cemetery and Thorndon Park are the areas where they are. Also the end of Janet Drive off Euclid. They go from my yard on Scott Avenue and down the hill to Janet Drive.
220	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			
211	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			Concern: Diseases for child playing outdoors

				YES	NO	?		
212	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			The deer have no fear. They act like they are shopping for real estate and just waiting for the humans to move out. In the last few months, I've seen deer (3 or 4 each time) hanging out in neighbors FRONT yards just watching the cars go by. I was coming home from work one night and 4 deer were in front of my neighbors porch. I stopped my car in case one or more ran into the street. But all 4 merely strolled across the street, down the driveway and behind my house. My first thought was George Orwell's "Animal Farm".
213	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			I had one deer who lay down in the back of my yard and stayed half the day!
214	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			
215	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1			Am new to neighborhood. Am worried about my new vegetable garden, though haven't had trouble yet. I also think this is a larger environmental problem that must be managed.
216	Meadowbrook	13224	Euclid Ave. & Scott Ave.		1		I have just begun to learn about which plants are deer resistant so cannot answer this question intelligently.	I'm really concerned. Gardening is not fun--always have to garden with body fully covered because of ticks. Then have to check after being outside. Deer frequent our yard as evidenced by the deer poop they leave behind and the flowers they have eaten. It is a complicated problem which needs a solution.
217	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1			Constantly disturbing the dogs.
218	Meadowbrook	13224	Euclid Ave. & Shirley Rd.	1			peonies!	
219	Meadowbrook	13224	Euclid Ave. & Shirley Rd.	1			mums	
220	Meadowbrook	13224	Euclid Ave. & Shirley Rd.		1			We would probably have a vegetable garden if it wasn't for the deer.
221	Meadowbrook	13224	Euclid Ave. & Shirley Rd.	1				
222	Meadowbrook	13224	Euclid Ave. & Standish Dr.	1			sedum, holly	Gorgeous 10-point buck has made backyard his home - google youtube "big buck tonitoland".
223	Meadowbrook	13224	Euclid Ave. & Standish Dr.		1			feces in yard
224	Meadowbrook	13224	Euclid Ave. & Standish Dr.	1			not sure of names	The deer population must be controlled for the appearance of our neighborhoods, for their own sake, and, most important, for the health of our children.
225	Meadowbrook	13224	Euclid Ave. & Standish Dr.	1			they eat anything!!!	
226	Meadowbrook	13224	Euclid Ave. & Standish Dr.			1	I don't know which ones are deer resistant.

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
227	Meadowbrook	13224	Euclid Ave. & Standish Dr.		1			They have become increasing bold, and seem unafraid of humans, even when I've tried to chase them out of the yard. I had three of them literally three feet from our front door when I went to get the paper. Startled both of us. Additionally, besides acknowledging a very mild winter, part of the discussion should also consider larger urban planning issues, specifically the continued development of nearby natural areas into residential tracts, thereby reducing what had been local deer habitat. Also, I am not opposed to culling the existing herd. (Note: I do have non-city dwelling friends with Lyme disease--It is not pretty.)
228	Meadowbrook	13224	Euclid Ave. & Standish Dr.		1		(don't know what's resistant)	we have high fence; suggest help from ESF
229	Meadowbrook	13224	Euclid Ave. & Standish Dr.			1	Don't know	My backyard is totally fenced in. That does nothing. We had a large male deer with a large rack of antlers lying down in the backyard just 2 weeks ago
230	Meadowbrook	13224	Euclid Ave. & Standish Dr.	1			brown-eyed susans, only the yellow parts of the plant	saw female with triplets, last 2 years
231	Meadowbrook	13224	Guilford Dr. & Killian Dr.	1			marigolds	I would not be surprised if the deer are filling out similar surveys about us.
232	Meadowbrook	13224	Guilford Dr. & Killian Dr.	1			hydrangia	
233	Meadowbrook	13224	Guilford Dr. & Kimber Rd.		1			
234	Meadowbrook	13224	Harrington Rd. & Meadowbrook Dr.		1			Remember, we are taking over their space, not the other way around!
235	Meadowbrook	13224	Harrington Rd. & Meadowbrook Dr.	1				It would be humane to kill these deer.
236	Meadowbrook	13224	Harrington Rd. & Meadowbrook Dr.		1		(do not know)	Killing unacceptable; move deer or spray to encourage them to move
237	Meadowbrook	13224	Harrington Rd. & Rockford Dr.	1			roses	There are piles of deer dropping around my back yard (4 to 6 piles), which is relatively enclosed. Neighbor commented there were about 10 deer on my front lawn one night when he went to walk his dog.
238	Meadowbrook	13224	Harrington Rd. & Rockford Dr.		1			
239	Meadowbrook	13224	Harrington Rd. & Rockford Dr.	1			Roses nibbled. Some geraniums nibbled.	2011 was much worse than 2012 in our yard, possibly because of some protective measures this year. Concerns about Lyme disease are important.
240	Meadowbrook	13224	Harrington Rd. & Rockford Rd.	1			mild chili peppers.	
241	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.	1			hosta, tulips, roses, daisies, primroses	Lyme disease. Ticks. Must check kids daily.
242	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.	1			Mums, hydrangea	Deer do not seem to be threatened by people or dogs - very bold.

				YES	NO	?		
243	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.			1	Don't know.	
244	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.		1			Regular visitors to yard - days mostly
245	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.		1			
246	Meadowbrook	13224	Hatherly Rd. & Meadowbrook Dr.		1			I love the deer. So they're eating some plants. Put up a fence! We've cut down their natural habitat, and driven them into the city, and now we're blaming them? Leave them alone. They are beautiful, graceful and quiet. I have only seen them very early in the morning, before there is a lot of traffic. And frankly, they've been here since we moved to this neighborhood over 30 years ago.
247	Meadowbrook	13224	Hillcrest Rd. & Janet Dr.	1			They never bothered my rosemary and basil plants in the past. but this year I had to move the pots up on the deck	
248	Meadowbrook	13224	Hillcrest Rd. & Janet Dr.			1	Don't know. I've just planned some "resistant" shrubs and it's too soon to tell.	They have been bedding in the woodlot behind my house for probably about a decade now. There were at least 4 fawns born this year, now nearly mature. If this population breeds this year, the number will likely be uncontrollable by this time next year. They live and breed in the woodlot between Crawford, Euclid, Hillcrest and Sherburne.
249	Meadowbrook	13224	Houston Ave & Sunnyside Rd.	1			Hydrangeas, coriopsis, Rose of Sharon	
250	Meadowbrook	13224	Houston Ave & Sunnyside Rd.	1			All Spring flowers except daffodils. Summer lilies.	For years we had two maybe three deer. This year there are 10 to 12. Can't wait for next year. Must be neighbors feeding them. They will come down from the hills looking for hand- outs and nothing scares them.
251	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.		1			
252	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.		1		No deer resistant planta	
253	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.		1			
254	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.	1			neighbor's plants	
255	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.		1			I just wonder why they live so close.

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
256	Meadowbrook	13224	Hurlburt Rd. & Meadowbrook Dr.		1			I live in an apartment building, so I have not seen first hand any plant or property damage. I do however see groups of deer hanging out very close to the road in yards, or crossing Meadowbrook Drive in the dark.
257	Meadowbrook	13224	Hurlburt Rd. & Rockford Dr.	1			geraniums; ferns; lamium;	The deer are not at all afraid of humans. They come right up to the house and don't move when you approach. Can't even take grandchildren outside due to fear of lyme disease. Cornell, Binghamton, and downstate colleges dealing with deer by using sharpshooters. Time we do the same and put people before animals.
258	Meadowbrook	13224	Meadowbrook Dr. & Montana St.	1			Geraniums and hyacinths used to be safe, but no longer. They get bitten off too. I lost an expensive potted plant to the deer even after hiding it where I thought it would be safe.	I looked up deer repellant concoctions online, but never did brew one to apply to plants, so I don't know if that would have helped.
259	Meadowbrook	13224	Meadowbrook Dr. & Montana St.		1			please don't kill them - maybe use birth control.
260	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			
261	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			
262	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1			Coneflowers, and certain vegetables that deer are "not supposed to like".	I'm a runner, and in the summer I run in the morning. It's a rare day that I don't see deer. One morning there were three eating my neighbor's day lilies. I stopped, clapped my hands and yelled at them. They turned their heads, looked at me, and went right back to eating. I also kept seeing a doe with twins up near Shirley Drive and one of the fawns would practically walk up to me if I stopped. That deer will have no fear of humans when it grows up.
263	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1				Number is too high; problem is urgent; address now.
264	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			
265	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.			1	not sure	Although beautiful to watch, it now impossible to have flower or vegetable garden without spraying "Deer Off." This is expensive and unhealthy!
266	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			I do see an abnormally amount of deer on the east side of the city compared to other city limits. Having said that, I have never seen damage or come across threatening deer.
267	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1				Concerned about Lyme Disease and feces left in my yard.
268	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1			tulips	I support any humane solution to this problem including killing a certain fraction of the deer

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
269	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.	1			lilac	
270	Meadowbrook	13224	Meadowbrook Dr. & Scott Ave.		1			I've only lived here for 3 weeks, so my answers might be different if I had a longer exposure to the situation.
271	Meadowbrook	13224	Meadowbrook Dr. & Scottholm Terrace		1		unknown	Frequently in back & front yards. Churn up grass.
272	Meadowbrook	13224	Meadowbrook Dr. & Scottholm Terrace	1			Dogwood bushes	I am in favor of controlling the deer population.
273	Meadowbrook	13224	Meadowbrook Dr. & Sherbourne Rd.		1			If you can attract them with corn to kill them, perhaps you can instead anestitize them & relocate them to the Adirondact Park or Zoo.
274	Meadowbrook	13224	Meadowbrook Dr. & Sherbourne Rd.		1			
275	Meadowbrook	13224	Mineola Dr. & Scott Ave.			1	not sure which plants are deer resistant.	The deer are not scared of humans anymore. They sit at the backdoor and do not flinch when I open it.
276	Meadowbrook	13224	Mineola Dr. & Scott Ave.	1				The deer are looking very thin and unhealthy. The herd should be managed so the healthy survive. There should be a special tax for this area to help solve the deer issues. If we do nothing the problem will only keep getting worse. The sooner we can get some action the better for the deer and the residents.
277	Meadowbrook	13224	Mineola Dr. & Scott Ave.		1			I believe that the deer in our neighborhood should be culled in order to protect the health and safety of the residents. While "Bambi" may be cute, the overpopulation and overcrowding have made for a serious health hazard. The venison would be a welcome donation for soup kitchens and the reduced danger would be a wonderful change for the neighbors. If we were talking about less cute animals, rats for example, there would be no question about culling the herd.
278	Meadowbrook	13224	Mineola Dr. & Scott Ave.		1			Quit taking away their natural habitat

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
285	Meadowbrook	13224	Scott Ave. & Scottholm Boulevard		1			There is a clear trail through back yards on Scottholm Boulevard, cluser sightings on Scottholm Terrace and through back yards on Meadowbrook. Deer are human friendly, bed down in back yard on occasion. Have dog and am concerned about the ticks and Lyme Disease. It's mating season and traffic has picked up as well as amount of deer droppings.
286	Meadowbrook	13224	Scottholm Boulevard & Scottholm Terrace		1			In the winter there seems to more intense searching for food and if we have any crab apples the deer eat. I also know the deer are in search of water and often it seems their traffic follows the path to a water source. Sometimes we also hear gun shot sounds coming from a nearby cross street (the dead end on Cumberland) late evening hours and I have contacted the Syracuse City Police but I often wonder if people may be poaching some of the deer at night. We previously lived in Madison, WI and they also had a deer population concern especially in the arboretum. I believe that Madison did hire sharp shooters to reduce some of the population. I have also noticed that on Long Island they also have a deer-people lyme disease problem and they has partially solved with feeding the deer through a special device that applies a tick killer to the deers neck when the deer voluntarily sticks its head and neck into the feeder. In Northern Wisconsin, deer part of the area and my parents have found that if they let the grass grow longer around their yard in places the deer will eat the long grass and not bother the plants as much. I think like all animals, they are hungry and just looking for a source of food and will eat what they find available. I do not want to see deer starving but we need to find a way to co-exist.
287	Meadowbrook	13224	Scottholm Terrace & Sunnyside Rd.	1			Hot peppers, basil, garlic (above ground), marigolds, nasturtium.	
288	Meadowbrook	13224	Scottholm Terrace & Sunnyside Rd.	1			yarrow, daffodils, sedum	They are definitely not afraid of humans and cars - they are definitely dangerous to our landscapes
289	Meadowbrook	13224	Scottholm Terrace & Sunnyside Rd.		1			
290	Meadowbrook	13224	Scottholm Terrace & Sunnyside Rd.		1			Seems to be one family of deer I see most often
291	Meadowbrook	13224	Scottholm Terrace & Sunnyside Rd.	1			Basil

				YES	NO	?		
292	Meadowbrook	13224	Shirley Rd. & Standish Dr.		1			We need some system to control the increase in deer population. We are now their only predators. Leashed dogs no longer intimidate them. In fact, shouting and throwing rocks toward them do not phase them either. We would give permission for experienced bow hunters on our property if there were like-minded neighbors. The meat should be butchered and given to places serving meals to the hungry. I now have to take hiking precautions in my own yard---long pants, checking for ticks.....

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
320	Outer Comstock	13210	Jamesville Ave. & Tejah Ave.		1			
321	Outer Comstock	13210	Jamesville Ave. & Tejah Ave.		1		I have only recently been looking for deer resistance and bird/butterfly friendly, so I can't say for sure	We have a certain amount of overgrowth at the rear of the yard, near the woods. We have noticed deer resting there. They used to stay at the back of the yard, 50 - 60 feet away; we have seen them next to the house, passing by a window, in the summer. Our dog doesn't frighten them until she gets quite close. I can walk almost 2/3 of the way up through the yard before they turn, jump the fence, and run a short distance. They wait for me to go inside, and come back.
322	Outer Comstock	13210	Jamesville Ave. & Tejah Ave.	1			I didn't think they ate mums or tomatoes.	The population should be reduced for our sake and the deer's sake. I do not know of any accidents concerning cars. City deer are smart and cars drive more slowly and there are street lights.
323	Outer Comstock	13210	Jamesville Ave. & Tejah Ave.		1			
324	Outer Comstock	13210	Jamesville Ave. & Thurber St.		1			
325	Outer Comstock	13210	Jamesville Ave. & Thurber St.		1			Our property backs up to apartments, which give deer the access to our back yard. The deer come and go from there, and damage occurs in our backyard garden. Haven't seen damage in front yard which faces busy Thurber Street.
326	Outer Comstock	13210	Roe Ave. & Thurber St.		1		I have not tried planting specifically deer resistant plants as this has never been a problem in the past and I am not fond of the idea of spending even more money to replace my landscaping for what I feel is a city problem of over population.	The deer have become very bold and will not leave yards on my street, Roe Ave, 13210, even during daylight hours unless effort is made to scare them away. I am able to walk up and take pictures of them. There are very large males in the area with a lot of antler that I worry about becoming aggressive. I frequently see injured deer in my neighborhood and do not know who to call to report it. The deer move in larger groups now even when crossing streets, making driving very dangerous lately. The problem has become so worrisome that I have began to inquire about legal protection if the city is aware of the problem and does not take action. In the University area there are a lot of pedestrians, etc, and the addition of large animals in the streets creates even more dangerous driving conditions. I am very fearful someone will be injured very badly at this point.
327	Outer Comstock	13210	Thurber St. & Vincent St.	1			Geraniums--I have planted them for 25 years without anyone making a meal of them, and there have been deer around for a couple of decades at least, but not as many, nor were they as bold.	They are beautiful, but there are many more than in past years.

				YES	NO	?		
343	Salt Springs	13214	Demong Dr. & Carlton Dr.		1			I know that deer are destructive to gardens, but I would like to say that deer problems are not the fault of deer -- they are being crowded/forced out of their natural environment due to over-development by humans. I am not aware of over-population in the LeMoyne neighborhood. It seems like we see the same few deer all the time -- usually traveling as a four-pack.
344	Salt Springs	13214	Demong Dr. & Carlton Dr.		1			I actually enjoy seeing them. I know that too many are a problem for some people, but they do add beauty to the neighborhood
345	Salt Springs	13214	Demong Dr. & Carlton Dr.			1	No idea	
346	Salt Springs	13214	Demong Dr. & Dell Pkwy.	1				
347	Salt Springs	13214	Demong Dr. & Dell Pkwy.		1		Used spray this year that seemed to help. Saw footprints too that they had visited.	No thanks
348	Salt Springs	13214	Demong Dr. & Gifford Pkwy.		1			
349	Salt Springs	13214	Demong Dr. & Gifford Pkwy.		1			
350	Salt Springs	13214	Demong Dr. & Salt Springs Rd.		1			Additional deer signs in our area could help avoid/decrease speeding and hitting deer on our street.
351	Salt Springs	13214	East Genesee Pkwy. & DeForest Dr.	1			yews	trampling landscape
352	Salt Springs	13214	East Genesee Pkwy. & DeForest Dr.	1			Holly, hyacinth (though usually just one or two), roses, dogwood. I will say that I've been continually removing plants that the deer eat and they simply move on to something else.	Often the deer appear very thin. They aren't afraid of people and have even come up onto my front steps to eat the bushes. And the amount of droppings they leave in the backyard mean you really can't walk anywhere without stepping in it.
353	Salt Springs	13214	East Genesee Pkwy. & Gifford Pkwy.		1		(not planted since)	Please add to mailing; emescon1@twcny.rr.com.
354	Salt Springs	13214	East Genesee St. & Manor Dr.	1			daylilies, young pine & spruce tress, chrysanthemum, hydrangea, sedum. I even saw one trying to eat lavender one winter.	Deer poo everywhere in my yard. It makes it difficult to be a gardener. Am seriously considering moving to a less deer-infested area as my main hobby is gardening and it's impossibly frustrating to deal with the deer. Had to tear out all the daylilies and tulips as they eat both the young shoots and the flowers. To plant a young tree I have to cage it for 2-3 years. And I'm at risk for Lyme disease as I spend all summer outside in my yard.
355	Salt Springs	13214	East Genesee St. & Manor Dr.	1			cat mint	The problem is profound and obvious to everyone here. Something must be done

383	University	13210	Acorn Path & Comstock Ave. Andover Rd. & Buckingham Ave.	1			peonies, lavender, they seem to be tasting everything	We have lived here 14 years. Only in the last 2 years have we seen deer in our yard, ticks on our dog, and lots of bucks. They stand their ground to us and our dog, and some move towards us rather than away. They used to have one "deer path" through the neighborhood. Now they're creating 3 more. We have seen a dead fawn and a dead fox. We hear cars screeching to a halt in the middle of the night several times a week. The deer are bounding to and from Oakwood. One of these nights a deer is going to go through a windshield. We are concerned about the young inexperienced students driving down Comstock. The deer are recently exploring tight enclosed spaces. We thought they avoided areas they could get trapped in. We also see a group of 13 deer feeding in the neighborhood by Nottingham Plaza at night. They go from yard to yard and move slowly across the street as if our car wasn't there.
384	University	13210	Andover Rd. & Kensington Pl.		1			I worry more about the deer than myself or my neighborhood.
385	University	13210	Andover Rd. & Lancaster Ave.		1		I'm really not sure what is supposed to be resistant.	Altho actual sightings have been limited the damage is evident and increasing.
386	University	13210	Berkeley Dr. & Circle Rd.		1			
387	University	13210	Berkeley Dr. & Dorset Rd.		1			
388	University	13210	Berkeley Dr. & Dorset Rd.		1			Recently there was a large deer in the back yard which made me too uncomfortable to walk through the yard to my car.
389	University	13210	Berkeley Dr. & Dorset Rd.		1			I would like to see them completely eliminated if possible.
390	University	13210	Berkeley Dr. & Stratford St..			1	Don't know	Deer feces are not nice in our small back yard, 50x150 lot. Deer sometimes take several claps of pan covers, etc to retreat over the back stone wall up the hill into the woods. To Terrace Road. Then they return. They are very bold and fearless.
391	University	13210	Berkeley Dr. & Terrace Rd.	1			anything not nailed down	
392	University	13210	Berkeley Dr. & Terrace Rd.		1			We regularly have deer "napping" in our yard. They do not even move (or express any fear) even when our boys play LAX in the yard less than 10 feet away. I worry about deer ticks/Lyme disease potential and am sad about the garden as well.
393	University	13210	Berkeley Dr. & Terrace Rd.		1			
394	University	13210	Berkeley Dr. & Terrace Rd.		1			
395	University	13210	Berkeley Dr. & Terrace Rd.		1			
396	University	13210	Berkeley Dr. & Terrace Rd.		1			once this week a deer was in the middle of Berkeley, just standing in late afternoon. One evening a buck was running after a doe from Dorset to Berkeley. Parking for the SU game made this an extra hazard regarding spotting the deer

415	University	13210	Clarendon St. & Sumner Ave.	1				Deer need to be culled
416	University	13210	Dorset Rd. & Stratford St.		1			I am interested in a humane solution to deer overpopulation.
417	University	13210	Dorset Rd. & Stratford St.		1			Please add me to your list of recipients: emwolf@twcny.rr.com. If you are seeking responses from households, rather than individuals, please discard my responses because my husband already responded. Thanks.
418	University	13210	Euclid Ave. & Lancaster Ave.		1		not that I am aware of	I think we have been lucky. I am aware the deer population is a big issue for many in the neighborhood
419	University	13210	Euclid Ave. & Livingston Ave.		1			
420	University	13210	Euclid Ave. & Livingston Ave.		1			
421	University	13210	Euclid Ave. & Maryland Ave.		1			
422	University	13210	Euclid Ave. & Maryland Ave.		1			I worry about the deer in the foreign habitat of the city. Everyone is making like they have encroached on us - but it is the development in the places where they once lived that has brought them so, oh yeah, its our own fault. The university built all of that student housing and we were glad because the students were making us crazy. So this is what we get. Gotta tell ya, the deer are MUCH better neighbors.
423	University	13210	Euclid Ave. & Maryland Ave.			1	not sure	
424	University	13210	Greenwood Pl. & Trinity Pl.		1			The closest deer I have seen were on Clarendon Street near Greenwood Place.
425	University	13210	Haffenden Rd. & Hertford St.		1			
426	University	13210	Haffenden Rd. & Hertford St.		1			
427	University	13210	Haffenden Rd. & Hertford St.		1			
428	University	13210	Haffenden Rd. & Lancaster Pl.	1				
429	University	13210	Haffenden Rd. & Lancaster Pl.	1			Flox, peppers	The backyard to my property abuts a hill owned by the city. A deer died on this hill and I called the city to remove it. They referred me to the DEC. The DEC contact said to simply let it rot on the hill. This is in plain view of our house and was an entirely unsatisfactory response. This was on city property and it is the responsibility of the city to take care of these incidents. There are a number of walking trails on the hill that are frequented by children, pets, etc. Having a rotting deer carcass will likely attract vermin and predators to the area.

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
430	University	13210	Haffenden Rd. & Lancaster Pl.		1			a large dead buck was found in the back yard of our next door neighbor this week. We don't know the cause of death. Our yards back up to Morningside reservoir so this is actually city property. The city refused to come out to get it and referred him to the DEC. They also refused and told him to drag it into the woods. I am concerned that this will attract a variety of unwanted critters, such as coyotes and foxes.
431	University	13210	Hertford St. & Lancaster Ave.			1	not sure	Now that we have a dog again the deer have not come into the backyard! Although we continue to see them in our area and the woods near our home, they aren't as much a problem as some other people!
432	University	13210	Kensington Pl. & Kensington Rd.		1			Deer have on three separate occasions jumped over a picket fence in our yard, breaking three pickets. Deer are eating many plants, though I assume they are not deer resistant. They do not seem fearful or people nor cars, but we ARE afraid they may get hit by a car at what is sometimes a busy intersection.
433	University	13210	Kensington Pl. & Kensington Rd.		1			the deer are out of control and really damaging the landscaping i paid for with my hard earned money. it is also not making the neighborhood as attractive
434	University	13210	Kensington Pl. & Kensington Rd.		1			Honestly, I think this is a waste of time and resources. When we develop land that deer occupy, we must expect them to be displaced into the city. I see them about every other week and sure they might eat some flowers, but so what, so do dogs, rabbits, squirrels, etc.
435	University	13210	Kensington Pl. & Meadowbrook Dr.		1			
436	University	13210	Kensington Rd. & Lancaster Ave.		1			When I approach the deer to scare them out of my year they just look at me and don't move.
437	University	13210	Kensington Rd. & Westminster Ave.		1			
438	University	13210	Kensington Rd. & Westminster Ave.		1			We have protected our garden by using a wireless deer fence, which has worked. However, the deer still eat all the hostas that are outside the perimeter of the fence, and as soon as the deer fence loses effectiveness, they are back eating everything in our garden. The deer don't seem to be afraid when they see people or dogs any more --- it requires major movement or noise to scare them to run away. A bit scary for me!
439	University	13210	Kensington Rd. & Westminster Ave.		1			

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
440	University	13210	Kensington Rd. & Westminster Ave.		1			This year there was 6 in the herd. Last year it was 5 maximum.
441	University	13210	Lancaster Ave. & Stratford St.	1				
442	University	13210	Livingston Ave. & Stratford St.		1			
443	University	13210	Livingston Ave. & Stratford St.		1			
444	University	13210	Livingston Ave. & Stratford St.		1			
445	University	13210	Livingston Ave. & Stratford St.		1			Even though I haven't seen them in my yard, I know that deer have been around because they have devoured part of my vegetable garden. This is the first year they've found my yard.
446	University	13210	Livingston Ave. & Stratford St.		1			
447	University	13210	Maryland Ave. & Redfield Pl.		1			I have seen deer more often in the streets within, say Westmoreland, Harvard/Dell, S. Beech, Madison, Ostrom/Comstock and Colvin and, of course, in Thornden Park. I support appropriate methods of severely "thinning" this population.
448	University	13210	Maryland Ave. & Westminster Ave.	1			They have nibbled n heucharas, despite being described as deer resistant. They have not eaten them to the nub, in other words, the heucharas continue to live despite not growing to their full potential.	There has been a dramatic increase in deer over the past 12 years we have lived here, from 0 - some many; and 0 deer damage - enough damage for me to change my garden plans. Also worry about lyme disease and use tick/lyme disease meds for our dog.
449	University	13210	Maryland Ave. & Westminster Ave.		1			Consideration should be given to the possible use of bow hunting to help with the deer population. An idea being passed around is to allow some of the larger parks (Barry Park for example) to be closed on certain days (weekdays see the least amount of activity) for local hunting access. Restrictions can be put on only allowing residents that are with in a certain distance to these parks to limit the number of hunters in an area as well. Permits can be issued to further control this way of culling the deer herd.
450	University	13210	Maryland Ave. & Westminster Ave.	1			coleus,impatiens	They walk up and down the side walk, the drive way, stand in the front yard, lounge in the back yard eating anything and everything - they are not afraid of any of us. They in fact sleep across the street in the bushes
451	University	13210	Maryland Ave. & Westminster Ave.	1			The deer are eating black rasberries, gooseberries, and black eyed susans.	There have been considerably less deer sighted after 2 sling shots were introduced in the neighborhood.
452	University	13210	Terrace Rd. & Windsor Pl.		1

				YES	NO	?		
466	Westcott	13210	Allen St. & Harvard Pl.		1			We are in need of humane pro active solutions. We, as adults, are the role models for our children showing that problems may be complicated and there are no easy, magic bullet solutions. Yet we can come together and find humane solutions to our problems. We need to show this can be done for the sake of the deer, the adults, our kids and our community.
467	Westcott	13210	Allen St. and Harvard Pl.		1			I am not bothered by the deer, although neighbors seem to be more bothered.
468	Westcott	13210	Broad St. & Cumberland Ave.	1			deer resistant only by we tried to fence it in better but did not do a good enough job	they seem to be totally unafraid of people and even of my (small yippie) barking dogs (more afraid when my friend comes over with his large barking dog)
469	Westcott	13210	Broad St. & Meadowbrook Dr.	1			daylilies	We will be changing more of our plantings. We never used to worry about deer resistant plantings because we only saw an occasional deer. Now, although we don't always see them, we see their droppings and the unmistakable evidence of their eating.
470	Westcott	13210	Broad St. & Nottingham Rd.		1			I find the deer to be at this point delightful and reassuring. They are no more an impediment to my driving than the teens, jogger, bikers and Sr.Citizens I encounter every day and the whole group (all of the above) probably keep some of our drivers a little saner Re gardens? A fence is little to ask and I see many among the more proactive of our gardeners.
471	Westcott	13210	Broad St. & Westcott St.			1	I am not sure what is "deer resistant" but I am suprised how much they will eat from our garden. They've pretty much wiped us out the last 2 year.	We live on Westcott St so a pretty busy street to have deer foraging through our back yard.
472	Westcott	13210	Broad St. & Westmoreland Ave.		1			
473	Westcott	13210	Broad St. & Westmoreland Ave.	1			Sedum, Hydrangea, Day Lillies	The deer hop over my fenced in yard and hang out in my back yard. Once had them there for 12+ hours, approx 6 deer, 2 female mothers and 4 younger ones. The frustration is that I can no longer grow vegetables or flowers in my yard and now they are eating foundation plantings which I have spent money on to redo.

				YES	NO	?		
474	Westcott	13210	Cambridge St. & East Genesee St.		1			I know of reports of individuals actively feeding deer in the neighborhood. Besides the fact that we have encroached on the deer habitat, there are people actively encouraging them to enter the residential area by feeding. Fencing is an easy fix if the cost can be incurred. I do not favor the hunting and killing of deer in the neighborhood currently.
475	Westcott	13210	Cambridge St. & Harvard Pl.		1			
476	Westcott	13210	Cambridge St. & Harvard Pl.		1			
477	Westcott	13210	Clarke St. & Fellows Ave.		1			I think that the city should allow a selective bow hunt for qualified hunters to reduce the deer herd. My wife has seen does with triplet fawns as well as twin fawns. They are reproducing at a rapid rate and the population should be controlled.
478	Westcott	13210	Clarke St. & Fellows Ave.		1			Thank you for asking.
479	Westcott	13210	Clarke St. & Fellows Ave.		1			I am opposed to the random killing of the deer population, if that is an option being discussed. However, I would support a decision to relocate deer to areas where they are less concentrated.
480	Westcott	13210	Clarke St. & Strong Ave.		1			
481	Westcott	13210	Clarke St. & Strong Ave.		1			The deer have posed no threat and we enjoy seeing them.
482	Westcott	13210	Clarke St. & Westcott St.		1			
483	Westcott	13210	Concord Pl. & Allen St.		1			
484	Westcott	13210	Cumberland Ave. & East Colvin St.	1				
485	Westcott	13210	Cumberland Ave. & Euclid Ave.		1			Our family does not support hunting or culling
486	Westcott	13210	Cumberland Ave. & Lewiston Dr.	1				My observation is that the deer have increased in number this past summer as opposed to previous summers when there seemed to be a doe and two fawn inhabiting the neighborhood. Now everyone has a deer story (house by house down the street), from someone seeing a doe birthing twins in her yard to someone seeing two young stags there. I do not wish the deer harm; except for the tics (I have a dog and it worries me) I could live happily with a deer or two showing up under the apple tree across the street. I know we have moved into their neighborhood. But due to weather conditions this year, the apple trees across the street were barren, the deer increased by fourfold and no gardens survived and they seemed to be everywhere and pretty fearless when it comes to humans or dogs, too.

				YES	NO	?		
517	Westcott	13210	Euclid Ave. & Fellows Ave.		1			When i drive from my parttime job at night after 11pm from fayetteville they are all along east genesee st. I am really scare to drive home so i drive 15-20 miles and down the middle of the road when no other car is coming.
518	Westcott	13210	Euclid Ave. & Houston		1			
519	Westcott	13210	Euclid Ave. & Houston		1			I certainly don't want deer to suffer from overpopulation and lack of food and I recognize that the deer can have a negative impact on human habitats. However, we must also recognize the human impact on the deer -- we are crowding out their natural habitat and having an adverse impact on them. This is a two-way issue.
520	Westcott	13210	Euclid Ave. & Wescott Ave.		1			
521	Westcott	13210	Euclid Ave. & Wescott Ave.		1			
522	Westcott	13210	Euclid Ave. & Westmoreland Ave.		1			We have 3 small children and the deer have not reacted to any attempts to make them leave our yard. We are unable to enjoy our yard. We also have to clean up deer droppings in our yard.
523	Westcott	13210	Euclid Ave. & Westmoreland Ave.		1			Many deer at Skytop. We walk our dogs up there. I have also heard of deer ticks in residential backyards around here.
524	Westcott	13210	Euclid Ave. & Westmoreland Ave.			1	Don't know	
525	Westcott	13210	Euclid Ave. & Westmoreland Ave.		1			I have seen deer crossing E Genesee St near East St going into the backyards along Meadowbrook.
526	Westcott	13210	Euclid Ave. & Westmoreland Ave.		1			It does seem that deer have begun to appear in areas of the neighborhood where I haven't seen them before. Although I still don't see them frequently on our block, it seems that this is likely to change.
527	Westcott	13210	Fellows Ave. & Harvard Pl.		1			
528	Westcott	13210	Fellows Ave. & Meadowbrook Dr.		1			
529	Westcott	13210	Fellows Ave. & Meadowbrook Dr.		1			Let them be, plant stuff they don't like
530	Westcott	13210	Fellows Ave. & Montana St.		1			In my opinion some deer need to be harvested
531	Westcott	13210	Jerome St. & Miles Ave.		1			
532	Westcott	13210	Jerome St. & Roosevelt Ave.		1			I have not noticed any deer activity on my property or street. The deer I have seen have been on Meadowbrook near Scott and Euclid near Westmoreland. There is definately an increase in activity in the last few years and they do seem to be moving closer to campus.

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
533	Westcott	13210	Jerome St. & Westcott St.		1			I will throw rocks at deer that I see in my backyard. I also fire on them with my pellet gun. It doesn't kill them but does frighten them. I like to chase deer with my car.
534	Westcott	13210	Kensington Rd. & Westcott Ave.		1			
535	Westcott	13210	Lennox Ave. & Miles Ave.		1			Keep in mind humans are not the only creatures who have the right to live on this planet.
536	Westcott	13210	Lennox Ave. & Strong Ave.		1			
537	Westcott	13210	Lennox Ave. & Westcott St.	1			maybe	I think that we should be able to figure out a way to share our space with the deer, or else stop encroaching on open land for housing malls, and other stuff.
538	Westcott	13210	Lewiston Dr. & Nottingham Rd.		1			Last year was a mild winter & deer thrived. If the winter this year is rough, nature will take it's course. I also think if we stop building more homes that are NOT needed, (Applecross & Boulder) we will leave the deer space to live on & they won't be coming closer to habitated areas. I am opposed to killing any of the deer. I think it would be proactive to put up signs indicating deer are in the area & traffic speed should be adjusted. In the 500 block of Nottingham rd where I live the speed is supposed to be 30. Numerous times in any given week cars are speeding 50-60 mph. The deer come from the woods and feed at the edge of the road.
539	Westcott	13210	Lewiston Dr. & Westmoreland Ave.		1			The deer are not afraid of us at all or almost any noises that we make. They come both morning and late afternoon.
540	Westcott	13210	Lewiston Dr. & Westmoreland Ave.		1		Not entirely sure, but I don't think so. They stayed away from daffodils for instance.	I do not see the deer daily all year round. The spring and summer were the high season. I saw a small herd last week on Tecumseh Drive up by East Pointe crossing the road. Luckily the driver ahead of me saw them in time.
541	Westcott	13210	Lewiston Dr. & Westmoreland Ave.		1			I've even seen deer in the early to mid-afternoon walking in the street that are unconcerned about me approaching in a car. They are less and less afraid of people.
542	Westcott	13210	Lewiston Dr. & Westmoreland Ave.		1		Unfortunately, the deer don't seem to eat the invasives, such as buckthorn, Japanese honeysuckle, multiflora rose, and garlic mustard. Lilacs are untouched.	Years of walking in the woods behind my house, often with shorts on and often barefoot, I've been very fortunately never to have found a deer tick on my body. I'm not sure how long that will last with the increasing numbers of deer in my neighborhood the past few years.
543	Westcott	13210	Lewiston Dr. & Westmoreland Ave.		1		We assume they will eat almost anything that grows.	We worry most about the deer spreadin Lyme disease. We hesitate to walk on the trail that passes our backyard and goes around the Hookway Tract and Barry Park. That's so sad.

Results of Survey Regarding Deer Population - Questions 8-9

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
544	Westcott	13210	Montana St. & Westmoreland Ave.		1			
545	Westcott	13210	Montana St. & Westmoreland Ave.		1			I take long dog walks all around the University neighborhood and have seen deer multiple times at dawn and dusk, also while driving to and from work. I am concerned for their safety as well as ours. I would like to see a humane solution to the issue. While the garden damage neighbors have seen is a nuisance, there are ways to deal with that, and it's not the end of the world. All living creatures need to eat. I'd like to see some form of birth control if possible. Culling by killing is something I would be opposed to. We have taken wild life habitat away from too many creatures. We need to do a better job of finding ways to live in harmony with nature.
546	Westcott	13210	Montana St. & Westmoreland Ave.		1			
547	Westcott	13210	Nottingham Rd. & Tecumseh St.		1			
548	Westcott	13210	Sherman Pl. & Westmoreland Ave.		1			
549	Westcott	13210	Sherman Pl. & Westmoreland Ave.		1			I routinely find deer droppings in my yard and it appears that deer "bed down" next to my house sometimes. last winter i noticed a total of 8 in my back yard one day.
550	Westcott	13210	Spaid Ave. & Westmoreland Ave.	1			Variegated Weigela	
551	Westcott	13210	Spaid Ave. & Westmoreland Ave.		1			
552	Westcott	13210	Spaid Ave. & Westmoreland Ave.			1	not sure	Most worried about Lyme disease.
553	Westcott	13210	Spaid Ave. & Westmoreland Ave.		1			
554	Westcott	13210	Tecumseh St. & Westmoreland Ave.	1			chrysanthemums, climatis	Yes, have great sympathy for wildlife, a naturalist, retired professor, with degrees in wildlife behavior and biology...this local deer heard must be culled...no other solution
555	Westcott	13210	Tecumseh St. & Westmoreland Ave.	1				Be progressive and follow Ithaca's lead and allow hunting in the city .
556	Westcott	13210	Tecumseh St. & Westmoreland Ave.		1			You probably discussed how New Zealand took care of their deer problem. It works.

557	Valley	13207	Brooklea Dr.		1		Not that I know of.	I have potted many of my plants for patio use as they don't enter the patio. I spray deer off and it seems to work, but not always. Fecal matter all over lawn. One night I saw a huge buck just lying on the lawn in the backyard - not frightened by our presence.
558	DeWitt	13224	Bradford Dr. & Cross Rd.	1			geraniums, chrysanthemums, marigolds, hydrangeas,	They even stand on their hind legs and eat out of our bird feeder. They leave droppings all over our backyard; when the grandchildren come, we have to go out and spend 1-2 hours cleaning it up. We are constantly doing deer tick checks. They are a nuisance and menace. Something has to be done!
559	DeWitt	13224	Bradford Dr. & Cross Rd.	1			geraniums, lavender, heliopsis...etc..	
560	DeWitt	13224	Bradford Dr. & Scott Ave.			1	I don't know.	I would support measures to control and limit the deer population.
561	DeWitt	13224	Bradford Dr. & Tecumseh Rd.		1			
562	DeWitt	13224	Bradford Pkwy. & Old Lyme Rd.		1			
563	DeWitt	13224	Bradford Pkwy. & Old Lyme Rd.		1			My husband and I enjoy the deer in our back yard and would not want to threaten their existence.
564	DeWitt	13224	Bradford Pkwy. & Old Lyme Rd.		1			
565	DeWitt	13224	Cross Rd. & Scott Ave.	1			Holly	The even ate m pumpkins.
566	DeWitt	13224	Cross Rd. & Scott Ave.	1			I don't know but my wife does and she isn't answering her phone while I am filling out this survey	I believe a controlled harvest plan through permitted bow hunting in selected woodplots would help
567	DeWitt	13224	Cross Rd. & Scott Ave.		1			Our back yard is completely fenced and we use to think this was a way of keeping the deer out, however, recently the deer have started to jump the fences. Behind our home is a public access the deer use this as a regular "run" and we see them daily. I would like whatever population management solutions that are being considered to be humanitarian in nature. I know other communities have worked to address using relocation programs and or programs that encourage the animals to move out toward more rural habitat.

Num.	Neighborhood	Zip Code	10. Corner (cross streets) nearest home.	8. Are deer eating deer resistant plants?			If yes, which plants?	9. Additional comments
				YES	NO	?		
568	DeWitt	13224	East Colvin St. & Nottingham Rd.		1			The deer have made a path behind our house, across E. Colvin and into the next yards.
569	DeWitt	13224	Old Lyme Rd. & Standish Dr.	1			Allium. They eat many others but I am not sure they are deer resistant. (Sedum)	We enjoy seeing the deer but do feel the population has grown too much. I also am becoming more concerned about the increase in ticks.
570	DeWitt	13078	Peck Hill Rd.		1			There are more young deer. I am seeing three babies with the doe.
571	DeWitt	13224	Pittman Ln. & Standish Dr.	1			Sorry, i'm not familiar with the plant names, but my neighbors said they are eating shrubs they were supposedly deer resistant (and had been before we moved in apparently).	
572	DeWitt	13078	Pointe East Dr. & Tecumseh Rd.			1	Don't know	
573	DeWitt	13224	Scott Ave. & Standish Terrace	1			Cone flower, Monarda, geranium, joe-pye weed, can't remember everything at this time.	
574	DeWitt	13224	Standish Dr. & Standish Terrace	1			This is the first year they have eaten mums and geraniums.	They are around 24 hours a day.
575	Manlius	13104	Barberry Ln. & Sweet Rd.		1		Mums	Tick infestation...constantly monitoring for ticks
576	Manlius	13104	Barberry Ln. & Sweet Rd.	1			Rose bushes, Spireas	We are most concerned about the increased Lyme disease exposure. Several neighbors have reported they have contracted it.
577	Manlius	13104	Barberry Ln. & Sweet Rd.	1			Geraniums, mums.	The tick problem on our property is truly worrisome. Since the weather turned cooler, we've had MANY days where we've removed 2-5 ticks PER DAY from our dog after she's been outside on our property. We've found ticks embedded in every family member (mom, dad, two boys age 11&13)at one time or another. Over the 2011-2012 winter, we found live ticks on our dog EVERY month of the winter.
578	Manlius	13104	Barberry Ln. and Red Pine Rd.	1			This year they eat our peonies. I think that drought was hard in them, so they eat plants they usually don't touch. The fawns eat everything, like young children, they don't know better.	I want them on birth control and or shipped to a remote area in the Adirondacks.
